

see the Scotch arms! At this distance  
speculum-maker of the world, so you

Jack laughed with pleasure. "Well  
is the purest day for viewing," he said.  
"Never a shimmer even by the water."  
I hope it will hold out until tonight.  
You see such a double star in Andromeda  
second of arc apart. Think of that,  
less than a second apart! With my three-inch  
telescope could never resolve anything much  
less than two. Should you not like to see a double
