Desbordando los límites
booq Avant XL

If a reader of six inches too small for you ...

Avant Booq XL is what you need. The first device with 9-inch capacitive touch electronic ink. A device that can read your files with absolute comfort in size DIN-A-4, on-line media, books with large pages ... And all with the same management control and comfort with her younger brother the **Booq Avant.**

Based on technology AUO + SiPix with 16 levels of gray, the display device Booq Avant series ends with the myth that touch screens are not suitable for electronic reading devices. Capacitive screen allows us to make Avant Booq annotations associated with our books or pages with a flick of a finger.

And, like the **Booq XL Avant** has WiFi connectivity you can use it to read newspapers online with a size perfectly suited for that role.

The tool for teaching and professional segment

Given its size and features, the **Avant Booq XL** is the perfect tool for teaching. 9-inch devices are sized to display pages of text books which has lots of information in various formats, graphics, tables, etc.. In addition, ease of management because the touch screen, coupled with the possibility of taking notes through its virtual keyboard, make it the perfect partner for the training process. The same happens in the office environment where such a device will help companies to eliminate paper task. The reports and other documentation generated can be displayed directly on the **Booq XL Avant**

rather than printed.

A highlight

- 9 inches for easy reading of large pages
- Capacitive Touch Screen
- WiFi Connectivity
- Accelerometer (automates the change from vertical to horizontal)
- Endorsement of books through its touch screen
- English-Spanish dictionary to facilitate the reading of texts in English
- The most suitable reader to read on-line press
- Insurance coverage for 3 months free of the broken screen.
